### **Day One: The "Spark"**

Get that "spark" in your searching by building your dog's engagement in searching. Explore how emotions and interest drive your dog's intensity and commitment, and learn how to maximize both!

### **Day Two: Air Flow**

Use air flow to build your dog's comprehension of how to work a hide more effectively. We will focus on air scenting skills, working through blowing odor and thermally affected hides. Problem solving hides train the dog!
